

## Lumachain (LUMA)

LUMA is a transparent and community-driven token built on Polygon (PoS), focused on long-term credibility, decentralized growth, and liquidity integrity. All contracts are verified, team and treasury allocations are locked on-chain, and ownership has been renounced — ensuring fairness and transparency for the ecosystem.

---

### Key Facts

- **Blockchain:** Polygon PoS (chainId 137)
- **Token Name:** Lumachain (LUMA)
- **Contract Address:** [0x453453096e669a8a48772287210098faA55bd64b](#)
- **Total Supply:** 300,000,000 LUMA
- **Decimals:** 18
- **Circulating Target:** 70% (progressive and transparent release)
- **Liquidity Pools:** SushiSwap (active)
- **Renounced Ownership:**  Yes
- **Verified Contract:**  PolygonScan verified

---

### Token Locks (Timelocks)

Allocation	Amount	Duration	Unlock Date	Lock Contract
Team & Founders	60,000,000 LUMA	12 months	April 2026	<a href="#">0xeb92f951f5a486e8d65569e737baf5b5fd494284</a>

Allocation	Amount	Duration	Unlock Date	Lock Contract
Treasury	30,000,000 LUMA	6 months	April 2025	<a href="#">0xE022379FbA9E3CE816DC973494791072b3ebE5C9</a>

Both timelocks were deployed using the contract: [contracts/SimpleTokenTimelock.sol](#)

### Transparency & Supply Endpoint

To ensure data transparency for aggregators (CoinMarketCap, CoinGecko, etc.), LumaChain provides public JSON endpoints hosted via Netlify:

- Circulating Supply API:  
<https://sweet-kringle-898f12.netlify.app/supply.json>

### DEX Markets

Platform	Pair	Explorer Link
SushiSwap (Polygon)	LUMA / USDC	<a href="#">View on DexScreener</a>

### Roadmap Overview

Stage	Price Range	Milestone
Phase 1	\$0.000001 → \$0.01	Build trust, expand liquidity, secure holders base
Phase 2	\$0.01 → \$1	Ecosystem strengthening, exchange listings
Phase 3	\$5 → \$10	Begin LumaNetwork development

Stage	Price Range	Milestone
Phase 4	\$10 → \$25	Launch LumaPay payment infrastructure
Phase 5	\$25 → \$50	RealFi asset tokenization (Real-World Assets)
Phase 6	\$50 → \$100	LUX Dividend Token (annual regulated yield)

---

### About the Project

LumaChain was created with a single mission — to make decentralized finance transparent, ethical, and real.

Every allocation, transaction, and lock is verifiable on-chain, and every development step will prioritize security and long-term trust.

---

### Repository & License

This repository contains:

- The official ERC-20 implementation of LUMA.
- The verified SimpleTokenTimelock contracts used for Team & Treasury locks.

License: MIT

See [LICENSE](#) for details.
